Step 1. Circumference

Measure all around the head. Position tape so it's edge follows the hair line all around the head and nape of neck. (avg is 22")

Step 2. Front to Nape

Measure from hair line at center of the forehead straight back over the crown to center of hairline at nape of the neck. (avg is 13 1/2")

Step 3. Ear to Ear

At front of ear, measure from hairline at base off the sideburn, up across hairline along forehead to same point in front of other ear. (avg is 11 1/2")

Step 4. Ear to Ear Over Top

Measure from hairline directly above the rear across the top of the head to the hairline directly above the other ear. (avg is 11")

Step 5. Temple to Temple

From temple to temple across the back of the head. (avg is 14")

Step 6. Nape of the Neck

Measure the width of hairline across the nape of the neck. (avg is 6")
